### Forum on “Promoting the use of CARATS Open Data”

The Committee for Promoting Renovation of the Air Traffic System (the Committee for CARATS) chaired by Professor Tetsuo Yai, Department of Built Environment, Tokyo Institute of Technology, has been having discussions toward the establishment of air traffic systems for the next generation, including measures to promote research and development (R&D) of the air traffic systems.

With the objective of promoting R&D as well as expanding its horizon in the air traffic field, a policy to release data from the JCAB’s database has been formulated, and JCAB began providing “CARATS Open Data” early this year, which includes the time, position, and other relevant data of scheduled flights in FY2012, FY2013 and FY2014.

This forum is designed to share and discuss experiences on research using CARATS Open Data, and encourage R&D in the air traffic field, leading to improvement in air traffic services.

1. Date: Friday, December 9th, 2016. 13:30–17:00
2. Venue: Conference Room (Room B05+B06+B07), 10<sup>th</sup> floor, GRAND FRONT OSAKA North Building
3. Contents (only in Japanese)
  - (1) Keynote lecture  
(Professor Tetsuo Yai, Department of Built Environment, Tokyo Institute of Technology)
  - (2) Outline of CARATS Open Data  
(Electronic Navigation Research Institute (ENRI))
  - (3) Research presentations and Discussion about CARATS Open Data
